

**UP FIRST: *Our Future Willoughby 2028* endorsed by Council; PLUS
FURTHER DOWN: The way we engage with our communities is
changing. Help us shape this process**

Dear Willoughby City Progress Association Stakeholders,

***Our Future Willoughby 2028* endorsed**

Thank you to everyone who participated in the community consultation process to shape Council's Community Strategic Plan, [*Our Future Willoughby 2028*](#).

We are pleased to advise that [*Our Future Willoughby 2028*](#), was adopted by Council on 25 June 2018. This document outlines the community's vision, aspirations and priorities for the next 10 years. Council received over 6,000 comments throughout the engagement process which started in late 2017. Reports summarising the feedback can be found [here](#).

Council's response to the vision is contained in our [*Operational Plan & Budget 2018-2019*](#) and the [*Delivery Program 2017-2021*](#); the latter spans the term of the current elected Council and outlines their priorities. These documents were also adopted at that Council meeting and provide the focus for the organisation in coming years.

Help us shape Council's engagement process

The way people like to be interact with their local Council is changing. Council is seeking to understand how it can engage a broad cross section of our community in more inclusive, new or innovative ways.

Go to <https://www.surveymonkey.com/r/WilloughbyAdvisory> or click [here](#) **before 10am on Monday 30 July** to tell us how would you like to see Council engage with our community.
